ST-LS

Medical Electric Drill **ST-D6009 Trauma Bone Drill**

Trauma Drill is meticulously designed with a specific focus on drilling holes for plates and screws in trauma surgery, ensuring it aligns perfectly with the unique requirements of these procedures.

Features

- **Imported Motor:** Utilizes a high-quality imported motor, known for its reliability and performance.
- **Autoclavable up to 135°C:** Designed to withstand autoclaving at high temperatures, ensuring thorough sterilization and maintaining aseptic conditions for medical use.
- **Variable Speed:** Equipped with variable speed control, offering convenience and adaptability during operation.
- **High Coaxiality:** Maintains precise alignment and low noise levels, contributing to the accuracy and comfort of the procedure.

Components

- 1 handpiece
- 1 charger
- 2 batteries
- 2 battery aseptic transfer rings
- 1 drill chuck key
- 1 instruction manual
- 1 Aluminum case

Packing, & Sterilization Case

Aluminum case packing

Optional Sterilization Case

Main Technical Data

Hand piece	Output power	150W
	Temperature rise	≤25° C
Charger	Input Voltage	AC 110-220V, 50-60Hz
	Voltage	14.4V
	Battery capacity	3000mAh
	Battery feature	Lithium Battery
	Charging time	2 hours

Non-loading speed	0-1200rpm
Non-loading noise	≤65dB (A)
Axial run out	≤0.1mm
Rated torque	3.5N.m
Impulsive torque	8.5N.m
Drill chuck clamping range	0.8-7.9mm
